(57) Abstract:

PROBLEM TO BE SOLVED: To obtain a composition containing a dispersion solution of polymer prepared by polymerization of an emulsion in water and neutralization with a low volatile base.

SOLUTION: This composition is an emulsion of acrylstyrene copolymer which is composed of a dispersion solution having a high glass gloss transition temperature and neutralized with an inorganic base such as soda or potassium or a high heavy organic base such as heavy amide, triethanolamine or tris(hydroxymethyl)-aminomethane.
